Instructions:

These preflop charts are designed to give you a fundamentally sound starting point for your preflop decisions. While these charts will work well in most situations, you should adjust them to take your specific situation into account.

Make the play listed from in position using a 2.5 big blind initial raise size, a 3-bet size that is 4 times the opponent's raise, and a 4-bet size that is 2.2 times the opponent's 3-bet. The 5-bet size is an all-in.

These charts are an excellent default, but playing a default strategy in all situations will result in you leaving money on the table. Adjust your strategy to take advantage of whatever your opponents do incorrectly and the money will flow your way. Check out the PokerCoaching.com quizzes and challenges for an in-depth look at when to deviate from the charts.
